

ACKNOWLEDGEMENT

I would like to express the deepest appreciation to my supervisor Yuji Toda, who brought me with the numerous meetings in every week for the last three years. I changed my major from landscape architecture to civil engineering for Ph. D. to be a researcher, who can find out the balanced alternatives between social science and science. Studying entirely different field was challenging in the beginning, but prof. Toda has taught me consistently in weekly meeting. Without all of the efforts from prof. Toda, it wouldn't have been possible to graduate with doctoral degree.

The life in Japan for the last three years was the best moment in my life achieving my first dream to be realized. I can surely say that the studies for the last three years will be a stable base for my life as a researcher. I would like to thank to prof. Tesuro Tsujimoto, who provided me an opportunity to enter Nagoya University. It was a great fortune that I met prof. Tsujimoto when I eagerly want to go abroad for doctoral studies.

In addition, I am grateful to my committee members, Prof. N. Mizutani, Prof. T. Nukamura, and Prof. M. Harada for their thoughtful comments. I was impressed by their attentive reading of my thesis draft and helpful advice. Also, I would like to thank to prof. Tashiro and prof. Obana for their comments and discussions in laboratory seminars.

My supervisor Myoungwoo Lee in Chonbuk National University sent me an e-mail with a song when the first semester of my doctoral studies was almost finishing. The e-mail and the song 'A goose's dream' from my supervisor have been great encouragement to me. I heartily thank to my supervisor Myoungwoo Lee.

I was working for Korea Institute of Construction Technology before I came to Nagoya University. When I was working for KICT, Dr. Hyoseop Woo and Dr. Hongkyu Ahn greatly supported to send me abroad for doctoral studies. I deeply appreciate to Dr. Woo and Dr. Ahn.

Finally, I am very grateful to my mom Hyangsoon Jeong, who supports and cheers my dream all the time. Her trust in me has sustained me not to give up my dream and gave me courage to challenge for my dream. As well, I really thank to my husband Donghwan Jin, who greatly supported my dream and life. His dedication with love gave me a stable life in Japan concentrating on the doctoral studies. Lastly, I would like to thank to all my family for their encouragement in my dream and challenge.
